

trade increment attributable to this tax incentive. It must also be determined if the authority of DISC has developed into a tax abuse.

OVERSIGHT

It is important to decide whether the Tariff Commission will serve any remaining useful purpose if huge discretionary authority is shifted to the President. The American people were stunned and shocked at the incredible Soviet wheat deal and the manipulations which surrounded it. In its present form, the trade bill will "reform" the American people and their elected representatives out of the trade decision process.

CONCLUSION

This bill would make the President into a trade czar. The bill seeks an unprecedented transfer of authority from the Capitol to the White House. Once this power is surrendered, in many trade matters congressional changes in the law could be stopped by the President and one-third of the Congress plus one; majority rule in many matters would be ended.

I am for a trade bill. I think it is important for America. This bill, however, would permit the President to arrange trade deals in specific areas, for specific companies, and for special individuals. It would give the President authority in trade matters to fatten his friends and destroy his enemies.

I cannot give the White House authority to enter into secret and star-chamber trade deals and then permit the dealers to shroud their action in Executive privilege.

Trade must be open—above board—and provide equal opportunities for all American producers, large and small, who produce the same commodity. The fairness doctrine must be enacted into the trade laws.

Congress can write a trade bill which meets the requirements of the Nation without providing wide-ranging and arbitrary authority to bypass the Congress.
